

## Crusher Jaw Plate introduce:

Jaw plate is major component of large jaw crusher. It is widely used in the mine industry, chemical engineering, cement industry, steel and iron industry, etc. Great Wall Steel Casting Company carries out the technology improvement and innovation in making the casting parts by summarizing our cast experience.

The large movable jaw parts designed and manufactured from Great Wall Steel Casting Company are advanced.

## The kinds of our crusher Jaw Plate:

### 1. Stone jaw plate

Great Wall Steel Casting Company supply stone Jaw Plates, Crusher Jaw Plate that is widely demanded in stone crusher industries. These are available in weight of 4000KG per piece. These are available in exact measurement or specification and are designed as per the Industrial norms. We offer the steel castings at competitive prices throughout the world.

## We produce Jaw Plates like:

|              |                   |               |                 |
|--------------|-------------------|---------------|-----------------|
| Bullet       | Kamal Engineering | Crown         | CCS             |
| Sayaji       | Mesto             | Apollo        | Sandvick        |
| Almedia      | BI Pegson         | Dhiman        | Puzzolana       |
| Stanis       | Voltas            | BHP           | Titan           |
| Ashoka       | Ecoman            | Deepa         | Nawa            |
| Ruby Regular | Toras             | Pakur Agarwal | Almedia brother |
| Ruby         | Taurion           | Sisco         | Almedia         |

## 2.Manganese Jaw Plates

Customers can avail from us an excellent quality range of Manganese Jaw Plates. These Manganese Jaw Plates are available in various sizes and specifications. Our Manganese Jaw Plates can be customized as per our customers specifications and it can be availed at most reasonable price.

### **Our Crusher jaw Plate Advantages:**

1. The particular heat treatment technology is applied in jaw plate manufacturing by Great Wall Steel Casting Company, which makes product structure optimized and hardness improved. The product performance is also enhanced greatly.

2. The jaw plate are made by high strength steel. To ensure stability of component during long time operation and extend its service life, Great Wall Casting also take the product optimization according to operation characteristics of jaw crusher.

3. Great Wall Steel Casting Company has high production capability in steel castings. For components such as movable jaw, we can take a batch manufacturing order in a very short period and with large production capacity.
